

CERTIFICATE OF SELECTIVE PALLET RACKING TESTS

For:
Godrej Storage Solutions,
No. 1, SIDCO Industrial Estate,
Ambattur,
Chennai,
Tamil Nadu,
INDIA-600 098

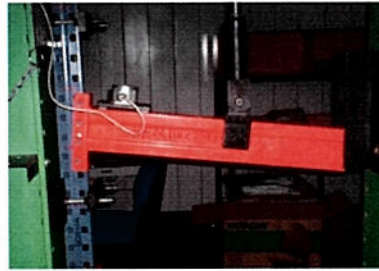

The product “**Selective Pallet Racking**” manufactured by Godrej Storage Solutions at Chennai facility in India, was tested and its technical calculations evaluated by Cowen Associates Ltd., UK.

Various tests were conducted on the Pallet Racking components in accordance with the SEMA Code of Practice at Godrej R&D laboratory, a selection of the tests were witnessed by Cowen Associates Ltd.

A proportion of the tests were repeated at Cowen Associates Ltd. test facility at Shropshire - UK and at The University of Sheffield – UK.

Shear capacity test on Beam end connector - Godrej.

Joint Stiffness test on Beam end connector – Godrej.

Joint Stiffness test on Beam end connector – Cowen Associates Ltd.

Using the test data, the safe working loads have been calculated based on the steel used in the tests of guaranteed physical properties. The test results and calculations carried out in accordance with the SEMA Code of Practice have been recorded in the GSR reports and are available in the Godrej Technical File for Selective Pallet Racking.

We confirm and certify that the product tests of the “Godrej Storage Solutions - Selective Pallet Racking range” and the Technical File are in accordance with the SEMA Code of Practice.
